

# Safety data sheet (SDS)

according to Regulation (EC) No. 1907/2006 (REACH) Article 32

Date of issue: 25.05.2022

Version: 1

## RT-PCR Respiratory panel 2: SARS-CoV-2/Flu/RSV

### Section 1: Identification of the substance and company

#### 1.1 Product identifier

Product name: RT-PCR Respiratory panel 2: SARS-CoV-2/Flu/RSV  
Catalogue number: DB-1252  
Package contents: Enhancer mix (4x)  
Primer mix (4x)  
Enzyme mix (4x)  
Positive control A  
Positive control B  
Isolation control  
Manufacturer: DIANA Biotechnologies, s.r.o.  
Address: Vestec, 25250, Nad Safinou II 366

#### 1.2 Relevant intended uses of the substance or mixture and non-recommended uses

Intended uses: Laboratory chemicals, diagnostic kit

#### 1.3 Details of the safety data sheet company

Trade name: DIANA Biotechnologies, s.r.o.  
Head office: Nad Safinou II 366, 25250 Vestec  
Czech Republic  
Telephone number: +420 212 247 462  
E-mail: support@dianabiotech.com  
www: <http://www.dianabiotech.com>

#### 1.4 Emergency telephone number

Toxikologické informační středisko, Na Bojišti 1, 128 21 Prague. Emergency telephone:  
+420 224 91 92 93/ +420 224 91 54 02, [www.tis-cz.cz](http://www.tis-cz.cz)

### Section 2: Hazards identification

#### 2.1 Substance or mixture identification

Classification according to Regulation (EC) No. 1272/2008 (CLP):  
Not subject to classification

#### 2.2 Labelling elements

Labelling according to Regulation (EC) No. 1272/2008 (CLP):  
Warning symbol: None

Signal word: None

#### 2.3 Other hazards

The mixture and its components are not classified as PBT or vPvB, are not on the candidate list for Annex XIV of REACH (not on the SVHC list) at the date of preparing the datasheet.

## RT-PCR Respiratory panel 2: SARS-CoV-2/Flu/RSV

### Section 3: Composition/Information on ingredients

#### 3.1 Substances

##### Mixture

#### 3.1.1 Ingredients of the mixture classified as hazardous

##### Enhancer mix (4x)

None of the components of the mixture is classified as hazardous according to Regulation (EC) No. 1272/2008 (CLP).

##### Primer mix (4x)

None of the components of the mixture is classified as hazardous according to Regulation (EC) No. 1272/2008 (CLP).

##### Enzyme mix (4x)

None of the components of the mixture is classified as hazardous according to Regulation (EC) No. 1272/2008 (CLP).

##### Positive control A

None of the components of the mixture is classified as hazardous according to Regulation (EC) No. 1272/2008 (CLP).

##### Positive control B

None of the components of the mixture is classified as hazardous according to Regulation (EC) No. 1272/2008 (CLP).

##### Isolation control

None of the components of the mixture is classified as hazardous according to Regulation (EC) No. 1272/2008 (CLP).

### Section 4: First aid measures

#### 4.1 General instructions

If you come into contact with the substance, follow first aid instructions and workplace standards.

#### 4.2 Most important symptoms and effects both acute and delayed

No data available.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Symptomatic treatment.

### Section 5: Fire-fighting measures

#### 5.1 Extinguishing media

Dry powder, dry sand, water, CO<sub>2</sub>

#### 5.2 Special hazards arising from the substance or mixture

None.

#### 5.3 Advice for firefighters

When extinguishing, use a closed-circuit breathing apparatus if necessary.

according to Regulation (EC) No. 1907/2006 (REACH) Article 32

Date of issue: 25.05.2022

Version: 1

## RT-PCR Respiratory panel 2: SARS-CoV-2/Flu/RSV

### Section 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

Avoid contact with skin and eyes, contamination of clothing and footwear. Wear appropriate personal protective equipment. Ensure ventilation of the affected area.

#### 6.2 Environmental precautions

Prevent further leakage or spillage unless there is a risk involved. Prevent leakage into the environment. Avoid entry into sewers.

#### 6.3 Methods and materials for containment and cleaning up

Soak up the leaked fluid with an inert absorbent. Wash contaminated surfaces and tools with plenty of water.

#### 6.4 Reference to other sections

See sections 7, 8 and 13.

### Section 7: Handling and storage

#### 7.1 Precautions for safe handling

Avoid contact with skin, eyes and clothing. Ensure adequate ventilation. Do not eat, drink or smoke while working. Wash hands after work.

#### 7.2 Conditions for safe storage, including any incompatibilities

Store the containers according to the manufacturer's instructions in the manual and on the packaging. Store at the temperature specified in the manual and on the packaging in a vertical position.

#### 7.3 Specific end use(s)

See section 1.2.

### Section 8: Exposure controls/personal protection

#### 8.1 Control parameters

##### Exposure limits:

Contains no substances with occupational exposure limit values.

##### Biological limits:

Contains no hazardous materials with biological limits set by regional regulatory authorities.

##### DNEL:

No data available.

##### PNEC:

No data available.

#### 8.2 Exposure controls

##### Technical measures:

Technical precautions and appropriate working practices take precedence over personal protective equipment. Observe normal principles of hygiene. Do not eat, drink or smoke while working. Wash hands with warm water and soap before and after work breaks.

##### Individual protective measures

# Safety data sheet (SDS)

according to Regulation (EC) No. 1907/2006 (REACH) Article 32

Date of issue: 25.05.2022

Version: 1

## RT-PCR Respiratory panel 2: SARS-CoV-2/Flu/RSV

### Respiratory protection:

It is not necessary if the specified concentration limits are observed and if there is no formation of vapours, mists or aerosols. If concentration limits are exceeded or if vapours, mists and aerosols are formed, use a suitable respirator against organic vapours (e.g. type A1) or protective breathing apparatus independent of the ambient air.

### Hand protection:

Protective gloves according to EN ISO 374 (e.g. made of nitrile rubber, thickness 0.11 mm, penetration time 480 min). Use protective hand cream before work.

### Eyes and face protection:

If splashing is likely, use: safety glasses with side covers.

### Skin protection:

Protective work clothing and footwear.

### **Limiting environmental exposure:**

Prevent unnecessary releases into the environment.

## Section 9: Physical and chemical properties

### **9.1 Information on basic physical and chemical properties.**

Cannot be used.

### **9.2 Other information**

Cannot be used.

## Section 10: Stability and reactivity

### **10.1 Reactivity**

It is not expected under the correct conditions of use.

### **10.2 Chemical stability**

Stable under recommended storage conditions.

### **10.3 Possibility of hazardous reactions**

Hazardous reactions are not known.

### **10.4 Conditions to avoid**

Comply with the handling and storage conditions set out in Section 7.

### **10.5 Materials to avoid**

Strong oxidizing agents, strong acids, strong bases.

### **10.6 Hazardous decomposition products**

Hazardous decomposition products are not known.

## Section 11: Toxicological information

### **11.1 Information on toxicological effects**

The product does not meet the criteria for classification.

## Section 12: Ecological information

### **12.1 Toxicity**

The product does not meet the criteria for classification.

### **12.2 Persistence and degradability**

The product does not meet the criteria for classification.

# Safety data sheet (SDS)

according to Regulation (EC) No. 1907/2006 (REACH) Article 32

Date of issue: 25.05.2022

Version: 1

## RT-PCR Respiratory panel 2: SARS-CoV-2/Flu/RSV

### 12.3 Bioaccumulative potential

The product does not meet the criteria for classification.

### 12.4 Mobility in soil

The product does not meet the criteria for classification.

### 12.5 Other adverse effects

The product does not meet the criteria for classification.

## Section 13: Disposal considerations

### 13.1 Waste treatment methods

The recommended waste mixture disposal procedure.

Dispose of in accordance with local regulations.

The recommended procedure for disposal of waste packaging contaminated with mixtures.

Dispose of in accordance with local regulations.

## Section 14: Transport information

### ADR

Not regulated, no dangerous goods.

### IMDG

Not regulated, no dangerous goods.

### ICAO/IATA

Not regulated, no dangerous goods.

## Section 15: Regulatory information

### 15.1 Safety, health and environmental regulations/specific legislation relating to the substance or mixture

This safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006 Article 32.

### 15.2 Chemical hazard assessment

No chemical safety assessment has been carried out for this product.

## Section 16: Other information

### Abbreviations:

ADR	European Agreement concerning the International Carriage of Dangerous Goods by Road
CAS	Chemical Abstracts Service
DNEL	Derived exposure level without effect (derived no-effect level)
IATA	International Air Transport Association
ICAO	Technical instructions for the safe carriage of dangerous goods by air
IMDG	International Regulation on the Carriage of Dangerous Goods by Sea
PNEC	Expected concentration without effect (predicted no-effect concentration)
